

REMARKS

In the last Action, restriction was required among 12 species. The Examiner stated that the 12 species are patentably distinct from each other, thereby making restriction proper. Applicants were required to elect one of the 12 species for further prosecution in this application and to list all claims readable on the elected species.

In response to the restriction requirement, applicants have provisionally elected the species of invention designated as Fig. 1 and list claims 1 ,3 and 4 as being readable on the elected species. The non-elected claims have been retained in the application pending possible withdrawal of the restriction requirement or allowance of a generic or sub-generic claim.

In light of the foregoing, early and favorable action on the merits is respectfully requested.

Respectfully submitted,

ADAMS & WILKS
Attorneys for Applicants
